

HPC SERVER

TWISTER

HPE ProLiant DL380

HASHBURST Algorithms Software Licence LIFETIME

COMPONENTS

2 x CPU Intel XEON-Gold 6530 2.1GHz 32core
512GB RAM DDR5-5600
2 x 1.92TB NVMe Gen4
1 x NVidia H100 NVL 94GB
5Y Tech Care Basic Service

HURRICANE

HPE ProLiant DL380a Gen12

HASHBURST Algorithms Software Licence LIFETIME

COMPONENTS

2 x CPU Intel XEON-Phi 7210 1.3GHz 64core
1 TB RAM DDR5-5600
2 x 1.6TB NVMe Gen4
4 x NVidia H200 NVL 94GB
5Y Tech Care Basic Service

 EQUINIX Servers are located at the EQUINIX data centers.

Our HPC servers, combined with Hashburst's unique algorithms, offer a unique combination in Proof of Work mining, capable of delivering exceptional performance and results unthinkable to date. The integration of these algorithms on such powerful machines enable them to achieve their goals with extraordinary speed and efficiency.

Given the extraordinary value represented by this unique combination of technology, the price of our HPC server-based solutions is not made public. Each negotiation is handled confidentially, allowing us to offer customized and tailored solutions based on the client's specific needs.
